## The spirit of the time. Putin to China, Biden to Israel

**Sources:** The economist gadfly [Image: China's New Silk Road. / AFP]

*Neoliberalism is the most respected genocidal in the world.*

Henry Kissinger was secretary of state, national security adviser, Nobel Peace Prize, the latter honour that reinforces the world's decomposition. Even thus, he was a secretary of state more evil than sin, without moral scruples Not a hint of humanity, able to negotiate with God and the devil if the business He was convenient, but never hesitant and incompetent as is appearance, and in fact, the mark of Antony Blinken, a warmongering neoconservative Jew negotiating with the Arabs, which doesn't seem like a good idea.

Van 11 countries, counting the stopovers in the Middle East in five days, which he visited the secretary of state, from whom he received nothing but scorn. Still less could it persuade Prime Minister Benjamin Netanyahu, whom he went to endorse unequivocally for Israel's right to respond militarily to Hamas, while quietly encouraging America's ally

to forgive the civilians in the Gaza Strip and convince him that a ground invasion would be the best way to kill him. suicide for the U.S. that the world could not ignore. How many bombings to Can Gaza's hospitals ignore the world?

*"Yes Allow me to make a personal comment, I come before you not only as secretary as a U.S. state, but also as a Jew,"* Blinken told Netanyahu. Maybe imagining that In Riyadh, a meeting that would be held at night, the Crown Prince Mohammed bin Salman showed up the next morning, leaving the secretary standing all night. The Saudi heir to the throne underlined "the need for to stop military operations that claimed people's lives innocent people" – a reference to Israel's offensive – and lift the "siege of Gaza" that has left the Palestinian territory without water, electricity or fuel, according to the Saudi summary of the meeting. The Crown Prince He also called for a halt to the "current escalation" of the conflict, a direct contradiction with U.S. policy, and by the way, they are left All agreements with Israel have been frozen, and talks with Israel have been expanded. Iran.

With Egypt things didn't change much: *"You said you're a Jew and I'm an Egyptian who grew up with Jews in Egypt." Egypt.*" Sisi said. *"They have never been subjected to any form oppression or attack, and it has never happened in our region that the Jews have been have been attacked in recent or ancient history."* Blinken responded to Sisi by saying, *"I come as a human being"* that he is appalled by Hamas' atrocities. The incompetence is endless.

Abdel Fattah El-Sisi, President of Egypt, denounced Hamas' attack on Israelis, and blamed Israel for leading to the the Palestinians to despair at the lack of two-state creation. After of Sisi meeting with his national security council, his office issued a A statement calling for an international summit "to study the future of the Palestinian cause." U.S. officials announced that they had arrived in an agreement with Cairo for a temporary opening at the Rafah border, between Gaza and Egypt, to U.S. citizens who They would like to flee Israeli violence and bombing, but not for the rest of the world. Palestinians. The Rafah border crossing – the only exit Israel does not controls – has remained closed to critical supplies of food, water, aid groups and friendly nations, with the help of coordinated by Egypt, they are trying to send to Gaza.

It may be agreed that the United Nations will send aid But Israel is unwilling to commit itself not to attack the aid vehicles entering Gaza; To go in and out, not to mention. ¿Why Egypt would validate the ethnic cleansing of Gaza that Israel has suggested and largely Part of your government wants? Open borders and welcome 2,300,000 Palestinians liberated to Gaza and would allow ethnic cleansing is what everything Middle East sees,

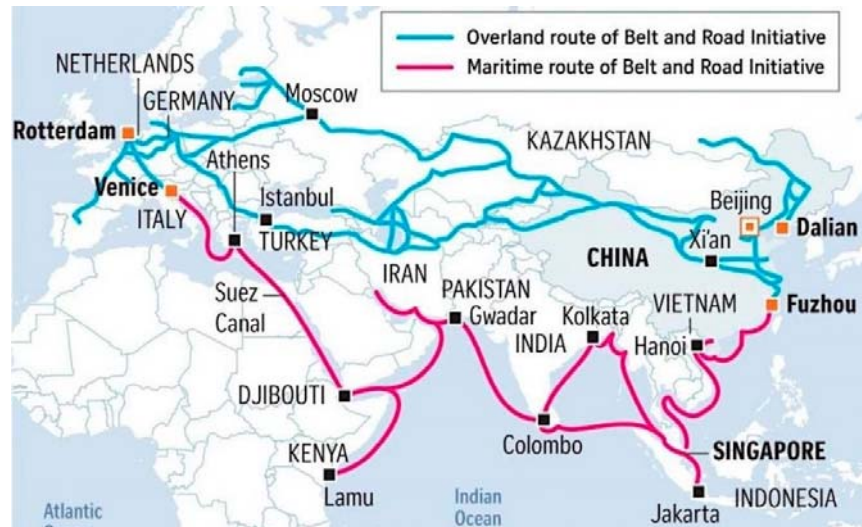

the Syrian Foreign Ministry in a statement "*Israel is perpetrating a policy of ethnic cleansing against the Palestinians, expelling them from their land and replacing them with settlers*" clearer than to pour water on it. Yes If they want Gaza to be deserted, they will have to go in and kill how many, 100 or 200? A thousand Palestinians to take it? Invasion is the solution that the far right And the ruling ultra-Orthodox want to. The cost, for Israel, is minimal, for U.S., infinite.

During Netanyahu's fourth war against the Palestinians of Hamas, well explained by [Alfredo Khalifa-Rahme](#), the rhetorical escalation of the inhumane siege of Gaza and his idea to wipe it off the map became more acute. Apparently, a large number of people do not know, or want to ignore, that, in the heat of the asymmetric war **between the Sunni guerrillas of Hamas and Israel's professional army** – equipped with 400 clandestine nuclear bombs, depending on who makes the interested statistics – this cannot be called a war. The presence of the U.S. aircraft carrier USS Gerald Ford, and soon that of the USS Dwight Eisenhower, in front of Israel, that is, in Gaza, is disproportionate to fighting the Hamas guerrillas, or you want something else. Perhaps some facts make sense, from aircraft carriers in Israeli waters to new U.S. aid to Ukraine, disguised as funds to Israel. In the Greater Middle East, the so-called Central Command has almost poetic geopolitical connotations. The Central Command's area of responsibility closely resembles the region that [Zbigniew Brzezinski](#) called the "Eurasian Balkans," or "global infiltration zone of violence" in his book *The Grand World Chessboard*. And as you can see, there are Israel, Ukraine, Russia and Iran.

Ukraine is considered a lost cause by [the U.S. colonels themselves](#) and media outlets such as *The Economist*. And it will be sacrificed for the sake of Israel, as it will be Biden's hasty visit to Netanyahu, with a direct relationship with the consolidation of the G-2 of Russia and China, which leaves the US isolated, under the perspective of the concept of strategic nuclear stability of the United States three superpowers. The ongoing pyromania in Gaza sums up the recent fire, of the Eurasian Balkans, Brzezinski scheme, adopted by Secretary of State Antony Blinken.

What needs to be destroyed is the Silk Road, displayed on the map. U.S. President Joe Biden delivered a televised address of about 15 minutes from the Oval Office of the White House, where he emphasized that the world is at "an inflection point" and asked for billions of dollars from the U.S. Congress to fight the "tyrants" and "terrorists" of Putin and Hamas. In the speech, broadcast on major television networks, Biden argued that it is "vital to the national interest" of the United States to be involved in these two conflicts.

The president did not specify the exact amount of funds he will request from Congress, but the proposal is expected to pass \$105 billion, according to media such as *The New York Times*. The proposal will include \$60 billion for Ukraine, \$60 billion for Israel, \$14 billion for the Asia-Pacific region, which includes Taiwan, \$60 billion to strengthen security at the U.S.-Mexico border, as well as 7,000 millions in humanitarian aid for various conflicts.

To each his plan to hit Russia and China, where the war of attrition serves. Netanyahu's recent new map, where unilaterally eliminates the existence of Gaza and the West Bank, complies with the Rand's stance, the Military Think *Tank* of the U.S. that "rationalizes" the unviability of "two contiguous states" of Israel and Palestine. Hence the mass expulsion of 1.1 million Palestinian civilians from northern to southern Gaza – out of a total of 2.3 million that, *in turn, In fact*, it subdivides it into two pieces, creating a demilitarized buffer north, with such an absurd argument like the good guys going south and the bad guys from Hamas staying in the north, that we're going to bomb.

In coincidentally, Zelensky's and Netanyahu's agendas have reached a disrupt U.S. domestic politics, when Biden, in the context of the for the U.S. presidency, in a theatrical ruse of demagoguery has sent its luxury aircraft carrier USS Gerald Ford to "protect" Israel sends funds, opting for "forward flight", to keep the Ukraine, validating Taiwan's logic without abandoning the southern border so claims for the Republicans. If any of the spawns of intervention on Hostages and ceasefire go well, it will be a bean for the campaign neocon of the Democrats, if it goes wrong, Trump will be getting closer and closer. of the White House.

America's biggest mistake is to reaffirm its alliance amid turmoil in the Middle East. While the global focus is now on focused on the war, in Beijing they have rolled out the red carpet to welcome representatives from more than 130 countries. 10 years since the new **Silk Road**, formally known as the Belt Initiative and the Route (BRI), the vast global infrastructure programme sponsored by the President Xi Jinping, and the Asian superpower is organizing a major summit to celebrate. While Beijing is seeking, with the III Forum of the New Silk Roads, seducing the Global South with multi-million dollar projects investments, the West is playing war with a view to raising the price of oil, inflation and generate further decline in growth. Chaos seems to be the exit.
