I Defend Hamas: Am I a Terrorist?

Mr. Biden declared himself a Zionist without being Jewish or having any idea what that is. But the leaders of the world who have been so servile and despicable that they have opposed a simple ceasefire at the United Nations should think that they are offending and betraying the memory of the victims of the Holocaust, most of whom would not deserve to be charged post-mortem with these crimes of the Israeli government and its allies.

The Israeli government is so arrogant that it labels as a terrorist anyone who defends the Palestinians, calls for a ceasefire, or says that the people of Gaza do not deserve to be called an "animal" and treated worse than a dog.

They are so slashed that they demand the resignation of the Secretary-General of the United Nations, Mr. Antonio Guterres, because he is only asking for the same thing as all

decent people in this world: a ceasefire and the return of water, electricity and food to the Palestinian people.

But happily the whole world is informed of the real situation, because even the most servile and sold out press has been ashamed to defend a genocide.

For more than 50 years, the Israelis have been trying to take land and homes away from Palestinians. Every day photos come in of Israeli soldiers killing or violently detaining a Palestinian, often a child. Those photos, that information exists and they will no longer be able to erase or delete it because we all have it saved. You could see them and you couldn't do anything, but finally things came to a head and Hamas dropped bombs, rockets or whatever you call them, into Israel. They say 700 civilians were killed and it's unfortunate. But in all wars, in all revolutions and in all anti-colonialist struggles, civilians die, as was the case in the Latin American wars of independence. And so it has been in the last two world wars, in the second more than 20 million Russian citizens died who defended their homeland to the death in Stalingrad, Leningrad and other battles. In Chile, during the dictatorship, thousands of brave comrades who fought against Pinochetism died. All wars are bad, especially when one side has atomic weapons, because it endangers all of humanity. But there are less unjust wars, such as the one waged by Palestinian citizens against an invading Israel that seeks to exterminate them.

In the editorial of the Mexican newspaper La Jornada, the most respected in this country and read in the whole world, it is said verbatim:

"For the past 56 years, Palestinians have seen their land endlessly devoured by settlements and ravaged by violence; its economy, suffocated; their population was displaced and their

homes were demolished. Their hopes for a political solution to their plight have been dashed..."

But it seems that one Israeli civilian is worth more than ten Palestinian civilians because they are not people but "animals," according to Israeli War Minister Yoav Galant. And that's it.

The Israeli government has the support of the U.S. government and most of the servile governments of Western Europe and others.

Netanyahu and Minister Yoav Galant seem to believe that the Holocaust, which more than 70 or 80 years ago exterminated more than six million Jews, gives them the right to kill as many Palestinians or non-Jews. Because, according to UNICEF, more than 400 children die every day in Gaza due to Israeli attacks.

The Cutest Smile

Is Israel a poor, defenseless people, victims of the evil Palestinians? I refer again to what the magnificent editorial of La Jornada reminds us:

"Israel has nuclear weapons, it has one of the most powerful armies in the world, an air force equipped with state-of-the-art technology and what is perhaps the most extensive and bloodthirsty spy agency, the Mossad; in this world, Tel Aviv uses these capabilities to subject the Palestinian people to a bloody occupation."

Mr. Biden declared himself a Zionist without being Jewish or having any idea what that is. But the leaders of the world who have been so servile and despicable that they have opposed a simple ceasefire at the United Nations should think that they are offending and betraying the memory of the victims of the Holocaust, most of whom would not deserve to be charged post-mortem with these crimes of the Israeli government and its allies. Nor would they agree with Netanyahu and company, who are Nazis because they employ their methods and their supremacist and discriminatory ideology.
