Racists' Paradise: Beach-Front Property for 2.3 Million Lives

US intent to own Gaza as stated by Donald Trump shows that the Palestinian genocide which was supposed to facilitate this process was premeditated at the highest levels in Washington.

Trump Spill the Beans

Donald Trump's statement during his joint press conference with visiting Benjamin Netanyahu on the 5th February 2025 confirms that the US establishment has been party to the Gazan Genocide for Washington's expansion. Trump started by bragging that he had financially attacked Hamas 4 years ago before continuing that the group was the aggressor for launching an October 7th, 2023 attack against Israel 16 months ago. IF US-Israel alliance launched financial aggression on Hamas 4 years ago, it means that Hamas' attack of October 7th, 16 months ago was a retaliation and that the former alliance is the aggressor.

The US imperialist system always conceals its interest as the world's

Therefore, Trump's explanation made no sense unless for those willing to surrender logic and believe him, like some did to George W. Bush with his Weapons of Mass Destruction

(WMD) Lies. As Trump progressed, his motive for lying in the above claim came out profoundly when he stated his country's objective to steal and control Gaza after aiding genocide on Palestinians. He also added that the world would be very happy for this flagrant land grab, as it would allow him to create unlimited jobs and housing for other populations he would allow into Gaza.

Making Gaza Unlivable for Palestinians

Trump's proposed land grab came with background information that shows how his country used Israel to make Gaza unlivable over the last decades with an aim of forcing natives to relocate. Also, he outlined how the US was willing to continue making Gaza a risky death trap if Gazans continue resisting displacement. He announced how Gaza has been a site of misery, due to Israeli bombs that are gladly donated by the US alongside the latest fighter aircraft, making Gazans to live in fear of being killed.

The previous wars the Israeli establishment launched against Gaza with US assistance, for instance in 2008/2009, 2012, 2014, 2021, and 2023, which destroyed hundreds of thousands of homes, schools, mosques, and churches are now used by Trump to justify how the enclave is a death trap for Palestinians. Therefore, it has been the US all along that has been driving carnage against Palestinians to achieve its goal of owning Gaza. The current US president even warned that Gazan's continued stay will be met with sustained violence over the next 100 years, but their decision to leave will immediately make the place peaceful.

Nothing reveals American's central role in driving violence against Gazans than Trump's statement that the US owning Gaza will lead to peace. Trump and Washington's oligarchy cannot bring peace if they had no control over the violence. The Western establishment, including Winston Churchill, has always hated allowing Palestinians and other native peoples to live peacefully in their fertile, resource rich, or strategically located ancestral lands.

The above-mentioned Bigotry made Churchill and Adolf Hitler to propose that Palestinians and Russians respectively, among others, be replaced by a *superior race*. Churchill, like Hitler, assumed the responsibility of deciding which race should replace another in some far-away land, just like Trump is doing Vis-à-vis Gaza. Trump would like Americans and Jews to Occupy Gaza, the West Bank, and Golan height as an addition to the British militarily occupying Cyprus. Similar racism is also driving Trump to propose that Washington occupy panama, Mexico, and Greenland, lands that belong to groups against which Trump maintains the option of committing genocide – which is euphemistically described as 'military option'. While the above bigotry was fashionable in the first half of the 20th century, it has no place in the 21st.

Trump, Netanyahu, and their handlers suffer from hubris that lead them to think they exist in a parallel reality like Churchill and Hitler. They do not feel bound by logic that the rest of the world live by, which makes them to brazenly reveal their crimes as justified by pathetic explanations. US intent to own Gaza shows that the genocide which is supposed to clear the path for this process was premeditated at the highest level of Washington's planning, as opposed to being a spontaneous response to the October 7th attack. The Gaza land grab is reminiscent of how Anglo-Saxons stole African, Asian, or South American land owned by peoples who never harmed Jews.

The Anglo-Saxons maintain a trend of occupying all strategically important lands and waterways, sometimes through proxy, but Gaza appears too important to be left to the Israeli mercenary government. While the western Mainstream media confused it audiences that Israel was conducting genocide in response to the October 7th attack, observers, including this author, argued that it was the US and UK using Israel to eliminate Gazans. Nearly a year later, Trump announced the silent part that 1.8 million of Gazans remaining out of a prewar population of 2.3 million will be displaced to allow the US to permanently own Gaza. This was an indirect admission that 500 000 Gazans have already been killed, a number that is close to estimates by Lancet study from July 2024 that 380 000 Gazans had been killed by the Israeli forces. However, Trump is not moved by this medieval loss of human life, so long as westerners own the coveted land. Instead, he is intent on erasing the rest of the population while granting Israelis even more weapons to expedite genocide, forcing Gazans to choose between being relocated or killed.

Sanitizing Oligarchy's Murder and Theft

The US imperialist system always conceals its interest as the world's. For instance, Trump claimed that his proposal to steal Gaza is good for the world, but could not clarify how he will distribute the land to nearly 8 billion people in the world today and why Gazans will not receive their share. Trump's 'world' means the oligarchs ruling the US, Western Europe, and Israel. His claim that his proposal will "bring peace" is disingenuous, as him and the oligarchy behind him cannot not mind killing native peoples who stand between them and their material ambitions.

Trump's claim that controlling Gaza will create unlimited Jobs and housing was also hypocritical as people in the region have been housed and gainfully employed in social, economic, and religious activities long before there was the US. Gazans can still build their own houses and provide meaningful employment for their communities. Also, Trump and his western Establishment have not provided unlimited employment opportunities and housing in

their countries and therefore cannot achieve it in Gaza. He can only create minimum-wage jobs in Gaza to make the western oligarchy to maximize profit while operating on stolen land. Notably, some Americans take multiple jobs in their own country but barely afford housing, groceries or healthcare.

Therefore, any job that Trump creates in Grabbed Gaza will be worse. Trump's attempt to steal Gazan's land for racist motivations while making false claims that he will create housing and employment must be called out.
