***Down with the Trustees! Down with the Trusteeship Regime!
Everywhere is Van, everywhere is resistance!***

The regime of Tayyip Erdoğan continues its attacks on the collective national and democratic demands, rights, and achievements of the Kurdish people. The fascist leader declares that there is no Kurdish national identity, that the popular revolutionary national status of Rojava must be destroyed, that the armed national forces must be eradicated through massacres, and that the Kurdish people must be permanently deprived of their national rights and left as a enslaved, imprisoned people. He imposes death sentences on those who demand more than individual rights.

Under the guise of "Islam" and the "Muslim Ummah," Tayyip Erdoğan has placed himself at the top of the list of the damned, practicing the most ruthless and vile forms of racism. His fascist regime tries to suppress and silence the patriotic Kurdish people, who are resisting the de facto abolition of elections through the trusteeship system in North Kurdistan, with fascist colonial state terror. Supported by fighter jets, drones, tanks, artillery, chemical weapons, the Turkish occupation army, and collaborating forces, it seeks to destroy the national democratic movement in the Medya Defense Zones and in Rojava and to solidify its colonial rule.

At the same time, the fascist regime continues its attacks on the struggle of Kurdish, Turkish, Arab, Circassian, Bosnian, Laz, Armenian, Abkhazian, Georgian, Assyrian, Greek, Roma, and Chaldean workers, women, youth, intellectuals, artists, the poor, and pensioners, who are fighting for their economic, democratic, and revolutionary demands. It bans strikes, spreads fascist terror against the oppressed who resist, issue press statements, or demonstrate. Anyone who takes to the streets with democratic demands is subjected to intimidation and threatened with weapons, batons, tear gas, arrests, the courts of Akın Gürlek, and imprisonment.

Through the arrest of revolutionary socialists, who are determined to defend the demands and aspirations of the working class and the oppressed, it aims to stop the growing resistance and struggle against fascism, colonialism, and patriarchy.

The terror of detention continues with antifascist journalists, activists like Ayşe Barım who participated in the Gezi uprising, progressive artists called for interrogation, media outlets critical of the palace like Halk TV being arrested, and lawsuits against İmamoğlu to intimidate and silence bourgeois opposition.

Let us stand side by side with the people of Van, who are resisting the attacks of the trusteeship, to push back this fascist colonial terror and break the shackles placed on the right to freedom of speech, press, assembly, organization, strike, demonstration, boycott, and resistance. Let us intensify the struggle against price increases, inflation, impoverishment, and unemployment, and put up a barricade against plans for new slave walls around women and femicides under the name of "family law" and "the year of the family," in an effort to build new walls of slavery around women and to resist femicide. Let us fight for the recognition of the national democratic demands of the Kurdish people. Let us become active in every city, district, and village, and strengthen the united resistance and struggle of the oppressed with street actions, after-work rallies demonstrations, shop and business shutdowns, night protests in neighborhoods, and boycotts. Let us strengthen the united resistance and struggle of the oppressed.

Let us organize, fight, and win against the fascist dictatorship of Tayyip Erdoğan. Let us build the first barricade of united resistance of the oppressed against the attack of the trusteeship.
