## '7,500 US officials serve Israel interest, Tel Aviv biggest threat to US'

9/30/202

An international lawyer says while the US Intelligence Community (IC) considers Israel the greatest threat to America's national interests, there are about 7,500 US officials "who do Israel's bidding," serving Tel Aviv's interests with no reservation.

In an article published on Press TV website, Franklin Lamb noted that a study commissioned by the US Intelligence Community earlier this year, has reached the conclusion that the American national interest is fundamentally at odds with that of Zionist Israel.

"It's ... an 82-page analysis [entitled: *Preparing For A Post Israel Middle East*] that concludes that ... Israel is currently the greatest threat to US national interests because its nature and actions prevent normal US relations with Arab and Muslim countries and, to a growing degree, the wider international community," Lamb added.

The IC-commissioned study clearly stated that Israel is grossly interfering in the internal affairs of the United States through spying and illegal US arms transfers.

“This includes supporting more than 60 ‘front organizations’ and approximately 7,500 US officials who do Israel’s bidding and seek to dominate and intimidate the media and agencies of the US government which should no longer be condoned.”

According to the report, the analyst added, IC believes that Israel leadership, with its increasing support of the 700,000 illegal settlers on the occupied West Bank “is increasing out of touch with the political, military and economic realities of the Middle East.”

The IC report also argued that as a result of Tel Aviv’s current brutal occupationist and belligerent policy, it “cannot be salvaged any more than apartheid South Africa could be.”

*“...as American power and influence recedes, the US commitment to belligerent oppressive Israel is becoming impossible to defend or execute given paramount US national interests which include normalizing relations with the 57 Islamic countries.”*

Advising the US government to avoid “entangling alliances that alienate much of the world,” the IC noted that instead of getting militarily involved in the Middle East on behalf of Israel, the US should undertake “the repairing relations with Arab and Muslim countries including the drastically curtailed use of drone aircraft.”

“US public opinion no longer supports funding and executing widely perceived illegal US wars on Israel’s behalf. This view is increasingly being shared by Europe, Asia and the International public.”
