## War in Gaza and Libya

<http://www.gaza-strophe.com/>

3/21/2011

Colonel Desmond Travers, member of the famous Goldstone commission »:We visited the same places. The film confirms our findings many months later. It is important that people should be allowed to see the film and make up their own mind on what happened during those three weeks, when the Israeli forces attacked. In fact, the 500 pages Goldstone report, describes facts in a technical and judicial language which might put some people off from reading it. By watching the film, I was made to remember that the situation in Gaza has worsen still since those images were filmed, a year and a half ago« .

The documentary shows the investigation of a human rights delegation after the criminal attack by Israel on Gaza in 2008. The war crimes committed include: systematic bombing of civilian houses, execution of civilians inclusive elderly, women and children, systematic destruction of agricultural land and olive plantations, killings of animals (livestock, cattle, etc.), destruction of factories and mosques, use of prohibited weapons (phosphor, shrapnel), bombing of UN school and warehouses.

Since then, Israel continues to starve Gaza killing mainly civilians .

Among else, France, UK and USA are supporting this criminal and inhuman undertaking.

These same criminals are currently waging a war against Libya – which has nothing to do with a non-fly zone – bombing the country's infrastructure.

The French president – little wannabe Napoleon with big complexes – pushed for this criminal war trying to overcome his unpopularity. So once again people suffer because of the ego of some incompetent idiots.

In the meantime Saudi and Emirate troops and police march into Bahrain crushing the peaceful demonstrations with the support of those hypocrites. While in Yemen the government continues to kill peaceful demonstrators ...

The people in Libya rightly aspire for and demand more freedom but the so-called opposition representatives who until recently were part of the regime hardly have the legitimacy to achieve this .
