Dr. Gharwal

Mr. President G. W. Bush,

Since 7 years are suffering the Nation of Afghanistan, your slogans of democracy, peace, security, freedom, women right and prosperity produced not only anarchy, chaos and poverty in country, it increased killing of innocent people by blind bombing over the whole country, after checking he villages with barbaric methods will be put innocent people into jails and torturing, insulting of innocent people are taking place, in addition. The attacks of terrorists are increasing day by day specially during this year.

Your slogans are getting slowly among the nation of Afghanistan the figure of occupation based on behavior of your soldiers and your politic, you ignored the warning report of NIC in the month of August of this year, there is pointed clear with strong warning the expanding of fight in Pakistan. It seems the start of second front of fight in Pakistan.

Mr. Obama announcement for more soldiers and start in Pakistan it is a very dangerous action and he has to read the history of Afghanistan very careful before he follow emotional the mistakes of Mr. President G. W. Bush!

Taliban are getting international acceptance as real power, even Mr. Karzai and his foreign minister are inviting them to join the government and it is made suggestion, that Mullah Omar can nominate himself for the next presidency election.

Former foreigner minister of Taliban is announcing in Kabul, that the attack of 9/11 /2001 was organized, advised and prepared in USA, the people of Afghanistan even the world see the entering of USA force into Afghanistan questionable. You can not say at the end your ruling; if I will be not president of USA any more, then I will not care what it will be the output of your created disaster in Afghanistan, Iraq and Pakistan. No, you will be the main responsible person for all following disastrous of your awkward, obsession chaotic politics to your nation and to the nation of Afghanistan.

Who is following the politics based on pigheadedness, then this guy has no notion from democracy, I am sorry to say, that base on your actions is the case during the 7 years in Afghanistan, to make it more clear I want to mention following points:

It was a great mistake to bring the known killer criminals back on the power and united them

with known unqualified corrupted people of your around.

It was a great mistake to announce from beginning huge amount of USD to be transferred to Afghanistan for rebuilding the country, by this announcement you united all additional mafias in country, they acted as plunderer, they acted as corrupted, and they acted as liar translator and advisors for getting money.

It was great mistake not to reflect as politician of super power your reaction against those robber, intrigues maker and unqualified elements, no you insisted to bring more weapons and soldiers into country to increase the disaster more as we see it now, the result is more distrust to the installed government, parliament and foreigner forces.

It was and it is a great mistake, that those criminal are using the reconstruction money additional to their own wealth for their own secret military groups and may be, your CIA are supporting it otherwise they should realized it what is going on there!

It was a great mistake to start your mentioned democracy style with artificial elections, Mr. President it is impossible to be elected those known killer and criminals under real democracy conditions, we have all those killer, criminals of so called leader of Mujahideen, commanders, communists and other questionable elements.

It was and it is still a great mistake, that this installed government circulated during the 7 years among themselves, we could never see any other personality in government, who does not belong to the mentioned groups and selected people. One brave and courageous woman Ms Malalai Joya was kicked out in barbaric way, because she announced and described loud the specifications of those people, although in your slogans was included women right too!

It was a great mistake that all known Taliban appeared again in Kabul after certain time, some of them enjoy their life as guest of government and some of them joined the government and parliament, but no body of them appeared themselves via TV, Newspapers and Radios to act honest for peace and stability of country. I am sure CIA are aware on all of them, such indifferent reactions are appearing many questions of dirty games.

It is a great mistake, that conflict of ethnic are getting support, specially between great ethnic Pashtunens and Tajiks and its got this insidious game more strength through creation of ³ Alliance of Nation ³.

It is a great mistake to be installed a mafia group in Pakistan, Mr. Zardari is known as 10% commission taker. CIA policy can not act in Asia; Asia mentalities are quit different and very complicated. If Killer, criminals are becoming more wealth in Asia, they are using such robbed money for getting totally power as we could see such dictators in many countries in the past and at the present time.

The situation of Georgian is additional sign of confrontation in the future, it is irresponsible to switch from slogans ³ democracy, peace, security, freedom, women's right and prosperity ³ to make Afghanistan as confrontation centre of creation of New Order of world, it is not possible and it is more dangerous.

To come out from created disaster, it is urgent requested a new government from Afghans through Afghans under supporting and observation of UN. We have in Afghanistan critical time and we need in Afghanistan a government with qualified, honest and with patriotism close to the nation, this government should be limited for certain time. You will see it then, that the

interfering of neighbor countries will be stopped, criminals and killer will be brought to court and the terrorists will be eliminated, if your goal was that and your slogans was honest, then follow the indeed wish of the nation of Afghanistan and correct the damaged image of USA and give to the nation of Afghanistan chance to act on its own!!!

P.S.: May be, you will remember, it was remind you regular from beginning on your mistakes, if you are friend of democracy, then you should reflect yourself as such in this critical time. Afghan nation has qualified personalities, but they should get the chance and let to act.

Best Regards
