**You will not be able to destroy the resistance, and you will
not escape accountability for your crimes!**

**Hassan Nasrallah's memory will live on in the struggle for
a free and united Middle East of the peoples!**

The racist colonial state of Israel has added a new heavy crime to its list by assassinating Hezbollah's Secretary-General Hassan Nasrallah, who has been preventing the continuation of genocide in Palestine, as well as He-

zbollah cadres whose names have not yet been disclosed.

The USA, the bloody enemy of the peoples of the world, has declared its joy over the massacre and announced its complicity with Israel. The EU states, which fill their days with demagoguery against violence and civilian deaths, have shown that they will continue their shameless support for Israel's genocide in Palestine and the massacres in Lebanon through NATO.

The Arab rulers, who are enemies of freedom and liberation from imperialist oppression, have had the audacity to issue a statement saying that those who challenge Israel and the USA, instead of standing with them, will end up like this.

Tayyip Erdoğan's fascist regime continues to maintain close ties with racist, genocidal Zionism, particularly in terms of commercial relations. Therefore, the words he utters for deception hold less value than the flame of a single matchstick.

Together, Israel, the USA, and the NATO-affiliated EU states are laying the groundwork for a regional reactionary, imperialist, and genocidal war.

The only way to stop this course is

through the united resistance of the peoples of the Middle East! To this end, it has become an urgent task to establish a united front of all revolutionary, anti-colonial, anti-fascist, anti-imperialist, anti-Zionist, and anti-U.S. political parties and organizations in the region.

Against the genocidal colonial war and massacres that Israel continues with the support and under the protection of the USA and NATO:

First, we call on the Arab youth, the Arab working class, Arab women, and workers to raise the flag of honor and freedom, particularly in Lebanon, Syria, Iraq, Egypt, Jordan, and Tunisia.

We call on the peoples of Kurdistan and Turkey to take to the streets side by side with the peoples of Palestine and Lebanon, to intensify protests, and to increase pressure on the fascist chieftaincy.

We urge the peoples of Iran, Rojhilat, and Baluchistan to demonstrate, without bowing to the prohibitions of the Iranian state, which shows only cowardice in the face of the Israeli genocide and assassination attacks.

We call on the peoples of Europe not to become accomplices in these racist, fascist, and genocidal

crimes against humanity, and to embrace the best traditions created by the courageous youth, women, workers, intellectuals, and artists of Europe in their struggle against Hitler fascism, mobilizing millions to occupy the squares.

Let us not forget that today, the USA and the NATO member states of the EU, which support Israel and drown Palestine and Lebanon in blood, are also preparing to provide the same support to the fascist chieftaincy regime, the fascist colonial Turkish regime that is on the brink of launching a large-scale genocidal colonial war against the Kurdish people, the Rojava revolution, and the PKK.

Let us not forget that without being

a barricade against the genocidal attacks and massacres of the racist colonialist Israeli Zionism in Palestine and Lebanon, the massacre and genocide plans against Kurdistan cannot be left inconclusive, and the complicity of the US and NATO with the colonialist fascist chieftaincy regime cannot be prevented.

Hassan Nasrallah and the martyrs of the Lebanese resistance will not be forgotten; their memory will live on in the fight for freedom!

Racist colonialist Zionism will be defeated; the peoples of the region will win!

September 28, 2024

MLKP Central Committee

Through the Gates of Sacrifice

On October 23, 2024, the guerrilla fighters of the Battalion of the Immortals, Asya Ali (Mine Sevjin Alçiçek) and Rojger Hêlîn (Ali Örek) from the People's Defence Centre (HSM), carried out a sacrificial action against the arms company TUSAŞ in Ankara. They succeeded in penetrating the headquarters of TUSAŞ, which is part of the military complex of Turkish colonialism and produces drones and air weaponry for the Turkish military. This attack dealt an important blow to the fascist regime at the heart of its war complex, located in a high-security zone. It is part of a series of significant guerrilla strikes against fascism that have shaken its foundations, including the HPG attacks on a police building in Mersin Mezitli on September 26, 2022, and on the police headquarters in Ankara Kızılay on October 1, 2023.

The HSM stated regarding the action: *"It is known that the weapons produced by TUSAŞ have massacred thousands of civilians, including children and women, in Kurdistan. There is no more legitimate right than for every patriotic organization, institution, and person from Kurdistan to take action against the*

centers where these weapons of massacre are produced."

The growing Turkish military industry, against which this action was directed, is part of Turkish expansionism in the Balkans, the Caucasus, the Aegean, and Africa. It provides the technical basis for genocidal attacks in North and East Syria, as well as against guerrilla units in South Kurdistan. We condemn the ongoing airstrikes of Turkish fascism in Rojava, which target revolutionary forces as well as the civilian population and overall infrastructure. As fascist aggression intensifies both internally and externally, the action in Ankara represents a significant expression of the determined resistance of the revolutionary forces in Turkey and Kurdistan. Despite heightened combat conditions and immense counter-revolutionary attacks, their willingness to fight is unbroken and hold accountable the unjust wars and the oppression of the fascist regime. The path to the liberation of the peoples lies not in empty promises but in the resolute and selfless struggle of the masses under the leadership of revolutionary forces.

Forward with ICOR!

Forward with the struggle for liberation, democracy, freedom and socialism!

I. With great success, the 5th World Conference of ICOR took place in Europe in September 2024. Delegates from 27 countries, all in all 32 delegations, took part in this Conference, which reached a quorum of more than 50%. Five guest organizations participated on invitation of the ICC. The 5th World Conference of ICOR stood out for its intense and deep ideological-political debate amidst rapidly changing conditions of the imperialist world system. It was based on a grown relationship of trust and struggle for mutual respect. The whole con-

ference was characterized by the struggle for a proletarian culture of debate, which, in view of the great tasks before ICOR, gains in importance.

II. During the World Conference, the Continental Conferences Europe and Asia took place. Continental meetings of Africa and America followed up on the Continental Conferences that had taken place just previously, and a regional meeting of Middle East took place.

III. The revolutionary youth of the participating organizations held a heart-felt commemoration for

deceased Marxist-Leninists and revolutionaries, representative of the many who have died since the last ICOR World Conference, and pledged to carry on the torch.

IV. The introductory decisions were taken with an overwhelming majority. The Main Coordinator, the Europe and Africa Coordinators and the Financial Officer were elected as the presidium.

V. In the center of the first two days were the introductory speech of the Main Coordinator, the country reports of each delegation, and the discussion of the world economic and political situation as well as the report of the ICC, which was unanimously adopted.

1. Imperialism is plunging humanity into life-threatening crises that threaten its very existence: a growing tendency towards fascism, the danger of a third world war with a nuclear risk, and the deepening of the global environmental catastrophe.

2. The world economic and financial crisis in many countries and the greed for profit are having a huge impact on the working class, peasants and the broad masses. Inflation, impoverishment, increased cost of living, lower wages, etc. are a means to extract more surplus value from the masses. The revo-

lutionary parties have to give this more room on their agendas.

3. The discussion confirmed the uneven development, which leads to further wars for the redivision of the world. The growing danger of a world war and the preparation for it by the imperialists are increasing. Those in power try to massively influence the search for a social alternative, which the ICOR organizations are experiencing everywhere, to take it on another course.

4. It became very clear that all organizations are actively discussing and deepening the analysis of the rapid and huge changes in the imperialist world system. The comrades from the neocolonially oppressed and exploited countries and the comrades from the capitalist and imperialist countries condemned the expansionist or imperialist policies of the ruling class of US imperialism, EU imperialism, Turkey and India, especially in Africa. The controversy about the thesis of the emergence of new imperialist countries was brought up in different discussions.

5. The discussion was forward-looking and focused on how the Marxist-Leninist parties and organizations can play a leading role in mass struggles, uprisings and revolutionary situations, for which the com-

rades from Kenya, Bangladesh, Sri Lanka and India shared their recent experiences. As a consequence it was discussed to strengthen revolutionary party-building.

6. The short presentation of the 32 country reports was enriching for the discussion, and many comrades agreed that there should be more reports on the tasks and experiences since the last world conference and its decisions. Many comrades talked about the instability of imperialism, the fascist and rightward development, and the growing struggles of the masses and working class. The fascist development inside the imperialist countries is preparation for aggression and war against other countries and the suppression of uprisings and revolutions.

7. The introductory speech gave an overview of powerful workers' struggles in the last three years. But the discussion also evaluated that the practical coordination and cooperation of the workers' struggles, especially in the production networks of the international monopolies like Volkswagen, are not developed enough. There is no proletarian revolution without the leading role of the working class, which the ICOR organizations must work for.

8. The war in the Ukraine was discussed as an unjust imperialist and inter-imperialist war of aggression, where the struggle has to be directed against imperialist Russia and the Zelensky regime, which is backed by and collaborates with NATO, EU, and the USA as the main warmonger. Some delegations characterized Ukraine as a fascist government. The war has to be transformed into civil war, as Lenin said.

9. There was agreement that the global environmental catastrophe and environmental crisis are aggravated by the worldwide rightward development of governments and the fascist danger this poses. Only a socialist society, in which the paradigms for production, consumption and distribution are oriented towards the unity of humankind and nature, can still offer people a future.

10. Comrades reported about increased repression, prison, torture, killings – calling for immediate public solidarity and to raise the consciousness about security concerns.

11. The conference emphasized the anti-revisionist and anti-reformist stance of ICOR for attracting the masses to a socialist future and answering the questions and necessities they have. We cannot over-

estimate the fact that ICOR today is very united in the main and seeks unity in regard to new phenomena and essential changes in a thorough way. This is attractive to other revolutionary parties, for which ICOR has an open door.

12. The 5th World Conference made strong efforts to apply the dialectical method to the various issues discussed and be precise in the determination and solution of unity and struggle in the contradictions.

13. The discussion was an important unification in the battle of the proletarian ideology against the bourgeois ideology and a good preparation for the seminar "Lenin's Teachings Are Alive!"

VI. The participants had an evening in solidarity with Palestine. All ICOR organizations present agreed on the full support of the Palestinian Liberation Struggle with a revolutionary-democratic perspective on the way to socialism. The common ground and the joint practical solidarity were not blocked by the differences yet to be resolved.

VII. The ICOR Women held a separate meeting at which experiences were exchanged and perspectives for the women's liberation struggle were discussed. These were presented in a resolution, such as on

campaigning for the socialist roots of the women's movement during 8th March, organizing international delegations to women's actions and strikes, support for the World Women's Conference and the theoretical women's seminar, and organizing ICOR women's conferences and coordination.

VIII. ICOR revolutionary youth organizations conducted a meeting to advance their work. A resolution on youth was adopted with a clear plan. ICOR has already seen a younger representation for a future generation change in the world conference, and it rejuvenated its bodies with young revolutionaries in the elections.

IX. Conclusions for the work of ICOR

The last World Conference prepared us for quick, often unforeseeable changes and also revolutionary developments. That started to become reality as soon as we parted three years ago.

ICOR must develop its practical cooperation and coordination higher and carry out offensive campaigns.

a) ICOR will find suitable ways to exchange experiences about the work among the working class, especially in the big industrial factories and the trade unions.

b) The 5th World Conference con-

firms the decision of the previous World Conference to intensify consciousness building and education about imperialism and the changes in the conditions of the imperialist world system and to extend this work by the understanding of fascism.

c) A new Region Middle East was formed, which already held its first regional conference and elected regional coordinators.

d) The 5th World Conference decided to intensify the unbreakable solidarity with the Palestinian liberation struggle against the genocide of the Palestinian people by the Zionist Apartheid regime. This baseline was enriched with decisions ranging from protest activities to the reconstruction of a hospital in Gaza.

e) ICOR will organize a week of solidarity with the Palestinian liberation struggle from October 1st to 7th, 2024.

f) The decision to publish a second edition of the online journal on Palestine is reconfirmed.

g) ICOR will organize an international anti-imperialist support campaign for the protests against the NATO 2026 summit in Turkey.

h) The ICOR organizations campaign for broad antifascist alliances and wage an offensive struggle against fascism themselves.

i) The participation of comrades from the youth organizations in the conference shall strengthen ICOR.

j) ICOR will make increased use of social media and improve the website of ICOR to increase its popularity and win new members.

X. ICOR has spent financial reserves to extend the activities, meetings and conferences. We must jointly develop financial work higher by collecting donations among the masses and undertaking mutual projects to collect donations. The discussion came up with creative ideas to generate revenues.

XI. The 5th World Conference defended the principles of ICOR and declared its solidarity against accusations. An appropriate resolution was adopted unanimously.

XII. The Conference elected a new ICC as well as auditors. Comrade Monika Gärtner-Engel was elected Main Coordinator, Comrade Ha-

tem Laouini Deputy Main Coordinator, and Comrade C.G. Suwash Financial Officer. Elected as Continental Coordinators were Benedict Wachira for Africa, Jovino Nuñez for the Americas, Sanjay Singhvi for Asia, and Jeroen Toussaint for Europe. The elections, with the full number of possible votes in most cases, expressed a high level of trust in the candidates.

Three new organizations from Asia were admitted as members. The Conference updated the list of member organizations concerning parties that no longer exist or have left ICOR.

XIII. The 5th World Conference passed resolutions on

- Struggles of the working class;
- Freedom for Palestine, for a socialist Palestine;
- Stand firm against fascist danger!
- Solidarity with the protracted people's wars in India, the Philippines, Turkey and Kurdistan;
- The ICOR Youth;
- No cross-front! No unity with fascists!
- Solidarity with Palestine;
- Liberation of Georges Ibrahim Abdallah, Ahmed Saadat, Khalida Jarrar and all the Palestinian prisoners;

- The Bangladesh uprising;
- Ethnic cleansing in Manipur, India;
- Rape & murder of a doctor in Kolkata;
- The society-changing environmental struggle against the global environmental catastrophe;
- Against the political persecution of the movement for amnesty and fundamental rights of Peru;
- Annexation and occupation of Nepali territories by India;
- The perspectives for ICOR Women!

- Fight Turkish colonialism everywhere!
- Against the long-standing occupation of Cyprus;
- On Venezuela.

XIV. The Conference was excellently self-organized by a multilateral organizational staff. With 115 comrades, among them 21 international brigadists, a new quality of multilateral collaboration was reached.

Forward with ICOR!

Forward with the struggle for liberation, democracy, freedom and socialism!

Forward to socialism and communism!

Workers of all countries, unite!

Workers of all countries and oppressed peoples, unite!
