## ***Against Capitalism, Imperialism, Colonialism, and Fascism: Long Live May Day – Long Live the Revolution and Socialism!***

The imperialist-capitalist system is in crisis. All parts of the world have been exploited, plundered, and enslaved without limits by the imperialists and their collaborators. Hunger, misery, unemployment, poverty, disease, lack of education, and homelessness plague the workers and laborers. Nature has been turned into a garbage dump. What is left that isn't exploited by the imperialist-capitalist bandits? The greed for profit of capitalism and its bourgeoisie knows no bounds. Lies weren't enough to save them. The king is exposed! Capitalism is again in crisis. Capitalism is dying.

Capitalism means exploitation!

Capitalism means hunger, poverty, and misery for workers and laborers!

Capitalism means the colonization of oppressed peoples!

Capitalism means patriarchy and barbarism!

Capitalism means the exploitation and destruction of labor, bodies, nature, and everything human!

Capitalism means palaces for the bourgeoisie and huts for the poor!

Capitalism means WAR!

To Our People, Our Peoples of Kurdistan!

The colonial, occupying, fascist, reactionary, despotic, and political-Islamist dictatorships continue to commit crimes against the Kurdish people and the peoples of Kurdistan. The colonialist, fascist Turkish occupying state does not recognize the national democratic rights of our people. It continues its attacks against our people and its communist and national-democratic vanguard in Bakûr, Basûr, and Rojava, using all possible methods, including liquidation, destruction, and war.

We, the Kurdish people and the peoples of Kurdistan – the workers, laborers, women, and youth – will resist, fight, and win unconditionally against the occupying fascist Turkish colonial state and the imperialist-capitalist states. We will fight for the establishment of a free and socialist Kurdistan, where the national yoke and colonialism will be broken, and capitalism and its bourgeois state apparatus will be abolished, for our dignity, freedom, labor, sweat, and future.

To Our People!

Imperialist states, regional reactionary, fascist, despotic, occupying, and colonial dictatorships are waging total war against the workers, laborers, and oppressed peoples in Kurdistan and the Middle East. They are using unrestricted power against all resisting and fighting forces. They are doing everything possible to liquidate and destroy all revolutionary, progressive, anti-fascist, anti-capitalist, and anti-imperialist structures. The imperialist-capitalist system has declared war on all the oppressed, using all kinds of weapons. The center of this war is the Middle East and Kurdistan. We will resist this war, which is intended to lead to the total liquidation of the resistance centers, with all means and methods and liberate our country.

The only way out is the organization and common struggle of all oppressed people against the capitalist system of exploitation and oppression. The path to the victory of national liberation and revolution lies through a united and socialist struggle. Without the destruction of capitalism and its fascist state apparatus, there can be no freedom for our nation, its peoples, women, religious communities, and sexual identities. The war bells of imperialists, colonialists, occupiers, rulers, and dictatorships have never been absent from our geography.

The USA, Great Britain, France, and Russia have turned the Middle East and Kurdistan into hell for centuries. Turkey, Iran, Syria, and Iraq have mortgaged Kurdistan as colonial states. Neither the Kurdish people nor the peoples of the Middle East have surrendered. There is the Rojava revolution. There is the Kurdish women's revolution! There is our struggle, which spans all four parts!

To the Turkish People and the Peoples, Workers, and Laborers of Turkey! The fascist Turkish bourgeois state and its government apparatus of the AKP and MHP exploit, bleed, plunder, pillage, and destroy the Kurdish and Kurdistan's peoples, workers, laborers, nature, and culture.

It is the fascist Turkish bourgeoisie and its state that exploit your labor and sweat, starve you,

drive you into poverty, make you unemployed and homeless. They incite you against your brothers and sisters by promoting chauvinism and racism. The causes of your hunger and poverty are not the Kurds and their struggle for freedom. Not the different religious communities. Not different sexual identities. Every time you demand your rights, you are met by the gendarmerie and the police with batons, gas, and bullets, by prison, by the courts, and by the law of the state. Do not become accomplices to the crimes of this fascist Turkish state and its bourgeoisie, which are hostile to workers, laborers, peoples, religious communities, and women. Your side and your place is the side and place of the Kurdish and Kurdistan's peoples, the workers and laborers.

Our salvation lies in a united, revolutionary, socialist struggle against our common enemy. There is no salvation alone, it's all together or none!

To the Peoples, Intellectuals, Socialists, Workers, Laborers, and Women of Syria! HTS, consisting of the remnants of ISIS and Al-Nusra gangs, nurtured and raised for ten years under the supervision and support of imperialist powers, particularly the US, and in cooperation with Turkey, has come to power in Damascus. HTS and its racist, Salafist fascist leader, Golani, are in no way inferior to Assad.

His first act was the massacre of the Alawites. Just like ISIS, both the Turkish state gangs and HTS kidnapped Alawite women to Idlib and sold them as slaves. They imposed Arab racism and Islamic Sharia law on the Druze, Kurds, Christians, and Alawites. Resist, organize, and fight against this political-Islamist, Sharia-compliant, and fascist government that has no future and is incapable of solving the problems of the Syrian people. Join the Democratic Autonomous Administration of Rojava-North and East Syria, which was established by the Kurdish people right by your side.

The freedom of the workers, laborers, and all oppressed groups will be achieved through the unity of the united, honorable, and democratic struggle. The only way against these misogynist Salafist ISIS remnants is the way of the Women's Revolution of Rojava. The task of extending the revolution to Syria for the revolutionary, democratic unity and freedom of the workers, laborers, peoples, and oppressed lies on the shoulders of the revolutionary intellectuals – above all the workers and laborers.

A free Kurdistan and a democratic Syria are our common future.

The time is ripe.

It is capitalism that is dying.

It is its racist, fascist, massacring, bourgeois ideology that is the enemy of women, nature, labor, and humanity.

It is the exploiters and colonialists who will force liquidationism, but will not be able to prevent their own liquidation.

Those who are being liquidated are the racist, jihadist, Salafist fascist gangs that massacred the Kurds, Alawites, Yazidis, and Assyrians – who yesterday were ISIS and Al-Nusra, and today are HTS.

The time is ripe.

Let us wage an organized, united, militant, revolutionary struggle against imperialism, capitalism, colonialism, occupation, Zionism, and hostility towards women, religious communities, and diverse sexual identities.

Let us liberate Kurdistan and the Middle East.

There will be no real freedom for us until capitalism, its states, its courts, its army, its police, and the system of exploitation are smashed.

The time is ripe.

It is the time of May 1st – the day of unity, struggle, and solidarity of the workers and laborers of the world.

Kurdish and Kurdistan-born workers and laborers, let us unite and fight against colonialism, fascism, capitalism, and imperialism.

Long Live May Day!

Long Live the United, Free, and Socialist Kurdistan!

Long Live the Democratic Federation of the Middle East!

Long Live the Revolution and Socialism!
